

## Riders for Hire -

We've reached out to horsemen to create this directory of available riders. Get in touch with any of these horsemen, let them know what you're looking for, and let them get your horse sale ready. Whether your horse needs legged up, tuned up, or just to get into a routine prior to the sale - these riders can help you.

\*Please note, Heritage Livestock, LLC does not endorse any of these contacts. We are strictly a median between riders and owners. We're offering this resource to get the seller the most we can for their horse, and the future buyer the most horse for their dollar while creating new relationships in the industry.

Taylor van Zyl

Surprise, AZ (970) 379-3091

\$1,000/month

I am a believer that a horse that is well-rounded and level-headed is always a valuable asset that can go any direction. I try to emphasize that in the training of any of my horses. They are well broke and have confidence to be successful in any discipline or situation.

We run a horse drawn carriage company so any horses in training with us get desensitized and experience with draft horses and wagons. I also put a lot of desert miles on one and have an arena available.
